- Precision engineered
- Available for both electric and oil heated hot stamping units

EMBOSSING BENEFITS:

- Precision engineered combined with unmatched artistic detail
- Meets stringent TIR tolerances

The Steps to Creating a UniSphere® Cylinder

STEP

1

ORIGINAL ART

UEI® Group loves working with a creative customer who seeks to capture attention. We want your product to be flawless but in order for us to make that happen, we need the art to be in vector format and that follows our Digital File Preparation Tutorial.

La Cuvée Universel

STEP

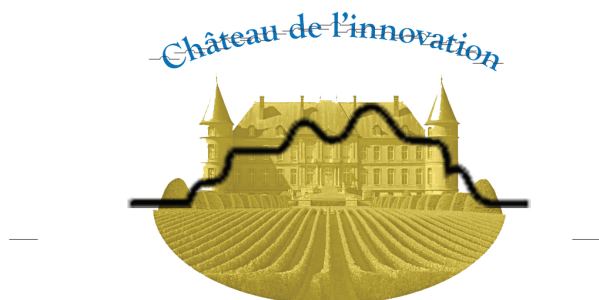

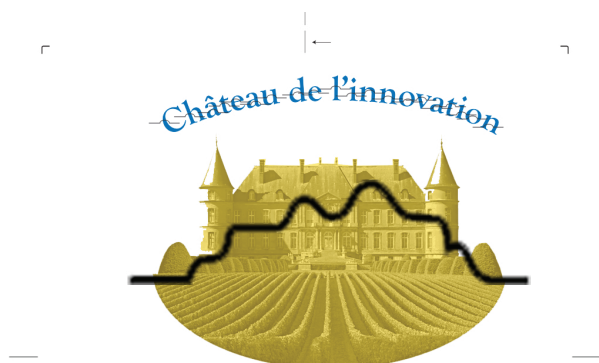

2

DIGITAL FILE TUTORIAL

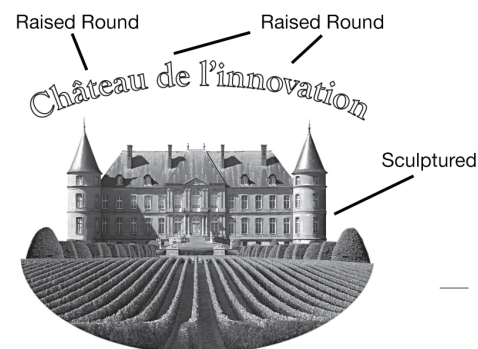

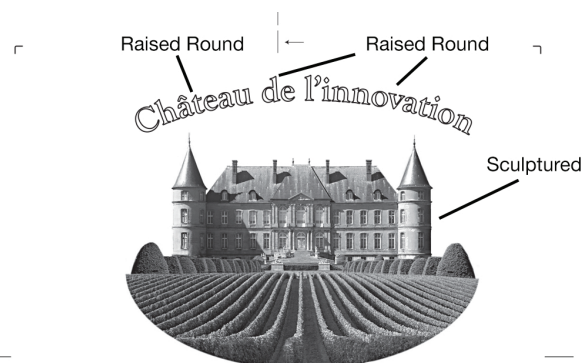

UEI® Group has developed an easy-to-follow Digital File Preparation Tutorial. The tutorial walks you through the basic digital artwork requirements for manufacturing your engraved die.

* Add all necessary information for manufacturing the order including any art instructions.

ART NEEDED
WITH UEI® GROUP'S COLOR KEY

ART NEEDED
BY UEI® GROUP IN OUTLINE MODE

* Show relief line and depict effects by color key
(see next page for UEI® Group's Color Key)

STEP

3

DIGITAL PROOF

UEI® Group can create a UEI® Digital Proof for brass engraved die (products during our production process). The proof can be sent electronically/digitally for viewing. You and your clients can view the artistic detail, texture, and depth of the die before we start engraving metal.
